

Annual Report 2015/2016

CHÉOS

Centre for Health Evaluation
& Outcome Sciences

Message from the Director

As the Director of the Centre for Health Evaluation and Outcome Sciences (CHEOS), I am privileged to speak on behalf of our 51 scientists and staff as I reflect on our achievements of the last year. This last year has been both intense and exciting for us. As you read over the next pages, you may recall some of our top stories from their recent coverage in the news media; indeed, our work has garnered attention from Canada's national newspapers and global television networks. This media attention is not an achievement unto itself; rather, it is a reflection of our accomplishments, and of the importance and impact of the work that takes place at CHEOS. The creation of high-quality evidence to inform decision-making through vigorous, systematic research is the true CHEOS achievement which I am proud to share with you.

Today, policymakers worldwide seek guidance in their response to public health problems that arise from myriad sources, including socioeconomic disparities that continue to intensify. At CHEOS, a number of our scientists focus on the socioeconomic determinants of health, and through their efforts we have deepened our understanding of influences such as unstable housing. For example, CHEOS Scientist Dr. Steve Mathias was instrumental in building Renfrew House, a six-bedroom home that welcomes homeless or vulnerably housed youth in Vancouver aged 18 to 24. As lead of the Inner City Youth Program, Dr. Mathias, along with CHEOS Scientist Dr. Chris Richardson, is instituting social programs that provide immediate assistance to British Columbians in need, while evaluating the effects of these programs to inform their development and potential expansion throughout the province. This effort—a single example of the work at CHEOS that you will read about here—does not occur in isolation, but in dedicated collaboration. The bridges that we build across our areas of expertise at CHEOS foster awareness of the complex processes that shape our health. At CHEOS, we never forget that a person accessing one of our programs may also require the services of another; we aim to support comprehensive care and to acknowledge its costs and complexity.

Some of our projects at CHEOS take months, others years—but when each results in a timely contribution to public health policy in this province, I am proud to recognize the achievement. It is an honour for me to present our activities from this past year and I look forward to reaching new heights with all of the dedicated CHEOS scientists and staff.

Sincerely,

A handwritten signature in black ink, appearing to read 'Aslam Anis'.

Aslam Anis, PhD, FCAHS
Director, CHEOS

Top CHÉOS Stories of 2015–2016

The SALOME team in 2016.

1 Study to Assess Longer-term Opioid Medication Effectiveness (SALOME)

Groundbreaking results from the **Study to Assess Longer-term Opioid Medication Effectiveness (SALOME)** found hydromorphone, a legal and licensed pain medication, to be as effective as diacetylmorphine (pharmaceutical-grade heroin) in treating people with severe opioid addiction who have not benefited from previous treatments, such as methadone or suboxone.

Diacetylmorphine is not presently available in many countries due to political and/or regulatory reasons. SALOME showed that hydromorphone is an effective alternative to diacetylmorphine for treating opioid addiction. Study participants treated with either hydromorphone or diacetylmorphine reported fewer days of street heroin and other opioid use at six months (three to five days per month) compared to almost daily illicit opioid use before study treatment.

2 New breakthroughs in vertical HIV transmission

Dr. Joel Singer presented new findings at the International AIDS Society (IAS) 2015 Conference, demonstrating that Canada has nearly eliminated vertical HIV transmission (infection passing from a mother to her child) through the use of HIV screening and treatment during pregnancy. Canada reported only three cases of vertical transmission in 2015.

Dr. Singer is a Co-Investigator with the national research group that conducted the study. “The happy conclusion, at this point, is that vertical transmission in Canada is rare,” said Dr. Singer, “and groups which were at excess risk are no longer so.”

3 Faculty appointments and promotions

Dr. Anita Palepu was named Head of the Division of General Internal Medicine in the University of British Columbia (UBC) Faculty of Medicine in 2015. **Dr. Geoffrey Cundiff** was reappointed as Head of the Department of Obstetrics and Gynaecology in the UBC Faculty of Medicine, and **Dr. Eugenia Oviedo-Joekes** was promoted to Associate Professor in UBC’s School of Population and Public Health.

4 Million Dollar Meds: Million dollar problem

Dr. Larry Lynd and his colleagues with the Canadian Institutes for Health Research (CIHR) New Emerging Team for Rare Diseases collaborated with the UBC Graduate School of Journalism on a project, called Million Dollar Meds, aimed at raising awareness about rare diseases and the issues facing patients and Canadian policy makers.

The campaign is a series of video clips of people living with rare diseases and their families, as well as interviews with health economists and researchers.

5 Improving care for people with kidney disease

Dr. Adeera Levin is co-leading Canada’s largest-ever effort to improve care for people with kidney disease. The five-year, \$59-million initiative aims to reduce the number of people who need dialysis or organ transplants, or who develop related illnesses that can be debilitating or deadly. Chronic kidney disease affects one in ten Canadians and costs the health care system over \$50 billion per year. The research program will include, but is not limited to: broader screening for at-risk populations, identify potential biomarkers to enable earlier diagnosis, and research drugs or stem cell treatments that could potentially slow progression of the disease.

6 New CHÉOS scientists bring fresh perspectives

Four new scientists joined CHÉOS in 2015–2016. **Dr. Anne Gadermann**, Assistant Professor, School of Population and Public Health (SPPH) at UBC; **Dr. Jane Lea**, Assistant Professor, Division of Otolaryngology–Head and Neck Surgery, Department of Surgery, UBC; **Dr. Amy Salmon**, Clinical Assistant Professor, SPPH, and Program Evaluator; and **Dr. John Staples**, Clinical Assistant Professor, UBC and General Internist. Read more on page 6.

7 Scientists supported by eHealth grants

CHÉOS investigators are involved in 4 of the 22 projects that received funding through the first phase of CIHR’s **eHealth Innovation Partnership Program (eHIPP)**. eHIPP aims to stimulate the design, testing, evaluation, and integration of evidence-based and patient-centered eHealth solutions.

The happy conclusion is that vertical [HIV] transmission in Canada is rare.

—*Dr. Joel Singer*

8 PROMs: Involving the patient in health care

CHÉOS Scientist **Dr. Rick Sawatzky** and his colleague Dr. Tolulope Sajobi (University of Calgary) received a three-year grant from CIHR that enables them to develop and implement methods that will enhance accurate measurement of patient-reported outcomes in health care.

Drs. Sawatzky and Sajobi will evaluate the effectiveness of methods that test for inconsistencies in patient-reported outcome measures (PROMs). In order to do this, they will utilize various data sources, including knee and hip surgery registry data.

9 Workshops improve care for pregnant mothers

Drs. Iris Torchalla and Verena Strehlau created a few more tools for health care providers to use when working with expecting and new mothers with substance use issues and their children.

Drs. Torchalla and Strehlau created a series of two-hour workshops for staff at Sheway, a Downtown Eastside program that offers social and medical services as well as other supportive services for pregnant women and new mothers. These services include: prenatal and postnatal care, sexual health counselling, addiction counselling, methadone maintenance treatment, nutrition counselling, parenting classes, and First Nations-specific services.

CTN and CIHR members at IAS 2015.

10 Happy 25th birthday, CTN!

The CIHR Canadian HIV Trials Network (CTN) celebrated its 25th anniversary in 2015. “The Network has adapted,” said Dr. Aslam Anis, CTN National Director and CHÉOS Director. “In the past we focused on conducting trials of antiretroviral therapeutic regimens, and now we have expanded to include clinical and behavioural patient-oriented research in the wider HIV community, especially among key populations.”

For the last 25 years the CTN has played a central role in driving Canada’s HIV clinical research efforts. In that time HIV research has made significant progress—from a rapidly fatal infection to a chronic, but manageable disease.

The CTN marked the occasion with a reception at the IAS 2015 Conference in Vancouver.

New Scientists

Anne Gadermann, PhD

Dr. Gadermann joined CHÉOS in December 2015. She received her PhD in Psychometrics from UBC, and completed postdoctoral training in Psychiatric Epidemiology at Harvard Medical School and at UBC SPPH. Dr. Gadermann is an Assistant Professor in the Human Early Learning Partnership research group within SPPH. Her research focuses on examining social determinants of health and quality of life in various populations, including children, adolescents, and vulnerably housed and homeless persons.

Jane Lea, MD, FRCSC

Dr. Lea joined CHÉOS in late 2015. An otolaryngologist specializing in Otolaryngology and Neurotology at St. Paul's Hospital, she obtained her MD in 2005,

and completed her residency in Otolaryngology–Head and Neck Surgery at the University of Toronto in 2010. She completed post-fellowship training at Johns Hopkins University and Royal Prince Alfred Hospital in the field of vestibular disorders. Dr. Lea has also completed subspecialty fellowship training in two disciplines: Otolaryngology and Neurotology, and Pediatric Otolaryngology, both at UBC.

Currently, Dr. Lea is an Assistant Professor in the UBC Department of Surgery. Her current clinical practice and research endeavours are focused on disorders of hearing and balance.

Amy Salmon, PhD

Dr. Salmon holds her PhD in Educational Studies from UBC, where she specialized in the sociology of education. She has also served as the Executive Director for the Canada FASD Research Network, Senior Research Associate at the Institute of Health Economics, and as the Coordinator for Sheway.

In addition to her CHÉOS Scientist affiliation, Dr. Salmon holds academic appointments as a Clinical Assistant Professor

at SPPH and in the University of Alberta's Department of Psychiatry, and is a Collaborating Scientist at the Centre for Addictions Research of B.C. at the University of Victoria. She is also the Developmental Evaluator for the B.C. Integrated Youth Services Initiative, a program that provides low-barrier access to primary care and support for mental health and substance use disorders.

John Staples, MD, FRCPC, MPH

Dr. Staples is another 2015 addition to our team of CHÉOS investigators. He graduated from medical school at the University of Alberta, and completed a residency and fellowship in General Internal Medicine (UBC), a Masters of Public Health (Harvard University), a New England Journal of Medicine Editorial Fellowship, and a Health Services Research Fellowship (Institute for Clinical Evaluative Sciences, Toronto). He is currently a Clinical Assistant Professor at UBC and a General Internist based at St. Paul's Hospital, his research interests include traffic safety and medical risk factors for injury.

Our Investigators

Our research teams work in specified health disciplines including, but not limited to: epidemiology and population health, health economics, statistics and research methodology, knowledge translation, program evaluation, personalized medicine, pharmacology and toxicology, psychiatry and psychology, and other medical sciences (i.e. cardiology, nephrology, etc.).

CHÉOS Scientists 2015–2016:

Aslam Anis, PhD, FCAHS
 Najib Ayas, MD, MPH, FRCPC
 Nick Bansback, PhD
 Sean Barbour, MD, M.Sc., FRCPC
 Monica Beaulieu, MD, FRCPC, MHA
 Carl J. Brown, MD, M.Sc., FRCSC
 Geoffrey W. Cundiff, MD, FACOG, FACS, FRCSC
 Peter Dodek, MD, M.HSc.
 Jim Frankish, PhD, MA
 Anne Gadermann, PhD
 Josie Geller, PhD, R.Psych.
 Jagbir Gill, MD, MPH, FRCPC
 John Gill, MD, MS
 Sabrina Gill, MD, MPH, FRCPC
 Eric Grafstein, MD, FRCPC

 Patricia Spittal, PhD
 John Staples, MD, FRCPC, MPH
 Rob Stenstrom, MD, PhD, CCFP-EM
 Verena Strehlau, MD
 Iris Torchalla, PhD, R. Psych.
 Greg Werker, PhD
 Brian Westerberg, MD, M.HSc., FRCSC
 Hubert Wong, PhD, B.ASc.

Media Highlights

SALOME in the news

Results of the **Study to Assess Longer-Term Opioid Medication Effectiveness (SALOME)** trial received a fair amount of media attention in the Spring of 2016.

Results from the groundbreaking study were covered by Canadian news outlets, including *The Globe and Mail*, *The Vancouver Sun*, CBC The National, Global TV, *The Huffington Post*, and Roundhouse Radio. International media, including CNN, FOX News, and *The Guardian*, also reported on the findings.

Relationships important to child well-being

CHÉOS Scientist and lead author **Dr. Anne Gadermann** found that children's relationships with peers and adults have a greater impact on their well-being than their socioeconomic status. The story was covered by the *Toronto Star* in January 2016.

"Our findings underline the importance of positive social relationships with adults and peers," Dr. Gadermann told the *Star*.

Bike helmet safety

New research by CHÉOS Scientist **Dr. Mieke Koehoorn** and her colleagues shed light on hospitalization rates as a result of bicycle injuries.

Published in *BMJ Open* in November 2015, the study suggests that in order to reduce

cycling injury rates, policies that focus on factors related to shared infrastructure, such as the creation of bike lanes physically separated from traffic or on quiet streets, are more effective than policies focusing on bike helmet laws.

Researchers studied administrative data on hospital stays for cycling injuries and looked at national hospitalization rates. The study found no correlation between bike helmet legislation and injury rates.

It was noted that females were found to have lower hospitalization rates due to cycling-related injuries than males, suggesting that women engage in less risky behaviour while cycling.

The study findings received attention from CBC News, *24 Hours*, and *The Independent*, among other news sources.

Women less likely to take post-heart attack meds

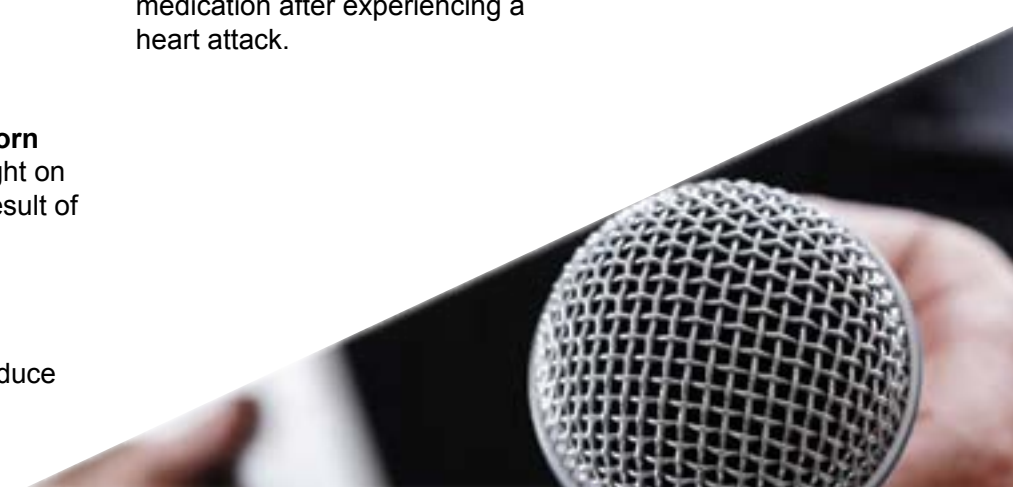

CHÉOS Scientists **Drs. Nadia Khan and Karin Humphries** co-authored a study that found that young women are less likely than men to be prescribed or take medication after experiencing a heart attack.

Researchers found that only 65 percent of women under the age of 55 initiated treatment (fill prescriptions) after a heart attack. This is compared to 75 percent of men in the same age group, reported the American Heart Association in an October 2015 press release.

Renfrew House transitions youth into adulthood

In December 2015, *The Globe and Mail* published a feature on Renfrew House, a six-bedroom home in East Vancouver that serves as a safe landing for homeless or vulnerably housed youth aged 18 to 24.

In the article, CHÉOS Scientist **Dr. Steve Mathias**, lead of the Inner City Youth Program which encompasses Renfrew House, spoke about the impact of housing on this group of youth.

Fostering New Talent

At CHÉOS, we mentor graduate students and postdoctoral fellows in the health sciences. Many of our trainees go on to secure faculty appointments and strong research careers.

Staff Updates

We welcomed the following new staff members in 2015–2016:

Danielle Arsenau, Karin Bezuidenhout, Stacey Forrester, Brad Harker, Kristen Hayden, Jes Hovanes, Marian Krawczyk, Kay Kuang, Kathy Li, Melinda Marshall, Katie Milbers, Dimitra Panagiotoglou, Sarah Sheridan, Sean Sinden, Rozanne Wilson, and Stanley Wong.

Please join us in thanking the following staff for their service:

Nathalie Beliveau, Kelsey Brewer, Heiko Decosas, Jill Fikowski, Michelle Jones, Melanie Kuxdorf, Tuan Le, Canice Ma, Marissa Mar, Tahlee Marian, Melinda Marshall, Shawna Morrison, Stephen Pan, Dimitra Panagiotoglou, Jim Pankovich, Shifana Premji, Jonathan Stiansen, Amanda Wood, and Hongbin Zhang.

Summer students who worked with us in the past year:

Sabrina Anis, Angela Du, Gleb Oleinik, and Daniel Ribí.

We would also like to thank departing Scientists Drs. Jean Kozak and Lorne Korman for their contributions to CHÉOS and wish them the best of luck as they continue their research efforts.

Clinical Research Support Services

CHÉOS assists investigators across PHC and beyond by providing a full spectrum of research support services. In addition to our own research efforts highlighted in our annual report, providing methodological support to other researchers within Providence Health Care and the wider health sciences community in British Columbia is a primary focus of the centre. CHÉOS offers a variety of outcomes-related research services to help clinicians and researchers conduct studies, including clinical trials, and publish evidence-based academic papers on health outcomes. The Centre has also developed capacity to support and conduct program, developmental and other related evaluations, along with knowledge translation initiatives.

CHÉOS has 82 on-site staff members and 51 scientists, and is one of two UBC Faculty of Medicine-approved research centres (since 2012) based at St. Paul's Hospital. The CHÉOS team consists of programmers, project managers, clinical educators, regulatory affairs specialists, data managers, program evaluators, health economists, statisticians, and other epidemiologists with a wide range of health sciences expertise.

CHÉOS is the largest unit of its kind in the Lower Mainland, and is collaborating with the B.C. SPOR SUPPORT Unit and the province's proposed Academic Health Sciences Network. In 2015–16, the Centre received requests for research services from over 60 different departments across the UBC Faculty of Medicine, in addition to a number of external clients, and over 111 client projects were supported by the centre during the year.

The Centre was chosen as one of the host institutions for the provincial Electronic Health Records in Research Seminar Series—this series aimed to promote awareness of opportunities and challenges in using electronic health records for research.

For more information or to submit a service request, please visit www.cheos.ubc.ca/services or contact us at researchsupport@cheos.ubc.ca.

CHÉOS research support services include:

Clinical Trial Management:

Dedicated clinical research personnel and project managers ensure the seamless operation of clinical research trials (both industry-sponsored and investigator-initiated).

Clinical Trial Monitoring or Auditing:

We have certified monitoring personnel on staff who can provide monitoring and auditing services.

Clinical Research Certification (SoCRA CCRP® Certification):

CHÉOS is the only organization in Western Canada with the ability to schedule and facilitate SoCRA CCRP certification examinations—the examination proctor is a CHÉOS staff member.

Grant Facilitation:

CHÉOS offers a number of services in this area, including budget and methodological consults to help with the preparation of grant applications and submissions.

Data Management:

A dedicated team of data experts can provide support with database development, data entry services, case report form/questionnaire creation, randomization, and drug management systems creation.

Study Methodology & Statistics:

Statisticians will perform a needs assessment in order to provide specialized support for statistical analyses, study design and methodology, randomization schemes, and data analysis, including developing and carrying out a statistical analysis plan.

Health Economics:

Decision-analysis services range from personalized medicine and health technology assessments to pharmacoeconomics, cost-effective analyses, and assessing value of lost productivity.

Regulatory Affairs:

CHÉOS has regulatory and quality assurance/quality control experts who can deliver guidance regarding ethics applications and audit/inspection preparedness, assist with navigating regulations from the various governing authorities, and ensure that research meets industry/academic standards.

Programme Evaluation:

CHÉOS evaluators will work with program stakeholders to develop logic models that illustrate a program's theory of change, design evaluations for measuring desired metrics, formulate assessment questions, analyze data, and make recommendations to determine if processes and outcomes are occurring as intended.

Clinical Research Training & Events

CHÉOS hosted and organized a number of events during the 2015–2016 year to promote clinical research training, including:

Clinical Trials 101: Industry vs. Academia—Navigating Regulatory Requirements

Nathalie Beliveau and Dana Nohynek

Approaches to Incentivize Linking Electronic Health Records to Registries: Lessons from U.S. Clinical Registries

Nick Bansback

Please visit www.cheos.ubc.ca/events/ for a complete list of events by CHÉOS and partner organizations.

Network of Networks (N2)

CHÉOS has members involved with the Network of Networks (N2), an alliance of Canadian research organizations. Feel free to contact CHÉOS if you have questions regarding:

- Online Clinical Research Training via the Collaborative Institutional Training Initiative (CITI) that include certificates for training in Canadian Good Clinical Practice, the Canadian Food and Drugs Regulations, Transportation of Dangerous Goods, and the Responsible Conduct of Research;
- Clinical Research Standard Operating Procedures;
- Support for Health Canada Inspections; and,
- Access to additional tools, templates, and programs.

Awards Report

PhD Student Logan Trenaman
| C2E2 Photo

CHÉOS scientists and trainees continued to excel in 2015/2016, gaining recognition from their colleagues.

Trainees

Logan Trenaman, PhD Student, was the recipient of two awards in 2015: the Dave Sackett Prize for Best Presentation by a Young Investigator at the International Society for Evidence-Based Health Care/International Shared Decision-Making 2015 Conference; and the Friedman Scholarship in Health Sciences from UBC, which enabled him to undertake six months of study at the Centre for Health Economics at the University of Manchester in the UK.

Dr. Daphne Ling, CHÉOS Postdoctoral Fellow in Personalized Medicine, was the recipient of a 2015 Trainee Award from the Michael Smith Foundation for Health Research.

Atiq Atiquzzaman, PhD Student, received the UBC Andrew Nord Fellowship in Rheumatology.

Heather Palis, PhD student, was awarded the 2015 Leadership Challenge Annual Meeting Scholarship from the American Public Health Association.

CHÉOS Scientist Dr. Adeera Levin | UBC Photo

Trainees **Stephen Pan, Adam Raymakers, Logan Trenaman, and Nicole Tsao** received Travel Awards from the CIHR Institute Community Support Program.

Scientists

Dr. Adeera Levin received a 2015 Distinguished Achievement Award for Excellence in Service to the University and Community from the UBC Faculty of Medicine.

Dr. Brian Westerberg received the Vancouver Coastal Health Research Institute 2015 Innovation and Translational Research Award to fund his project, "Targeted stem cell therapy to the inner ear using new magnetized cochlear implant."

Dr. Linda Li received the 2015 Association of Rheumatology Health Professional (ARHP) Distinguished Scholar Award at the annual American College of Rheumatology/ARHP Scientific Meeting, which took place in San Francisco in November 2015.

Dr. Jim Frankish was honoured for his work on the At Home/Chez Soi study with a Community Achievement Award from the B.C. Achievement Foundation.

The Friedman Scholarship will provide exposure to a health care environment that is at the forefront of promoting patient-centred care, and allow me to learn and bring insights that can be applied here in British Columbia.

—Logan Trenaman

Bibliometric Analysis*

During the 2015/2016 fiscal year, CHÉOS scientists made impressive contributions to the medical literature with the publication of 255 peer-reviewed articles with 39 percent of those published in the top 10 percent of journals worldwide. In the relatively short period of time these articles have been available for review, they have amassed 476 citations. When compared to articles in the same field and for the same timeframe, CHÉOS publications are cited on average 1.6 times more per paper.

Based on citations, CHÉOS is excelling in key areas of interest, including Cardiology and Cardiac Medicine, Education, Internal Medicine, Microbiology (Medicine), and Radiology, Nuclear Medicine and Imaging. Among the top 5 CHÉOS articles that fell within these specific categories, each has been cited on average 22 times more when compared to similar articles.

CHÉOS scientists have also been actively engaged in international research partnerships, with 41 percent of last year's 255 articles published by teams that included an international collaborator. Overall, CHÉOS scientists are having a significant impact not only in Canada, but internationally, by contributing relevant and valuable research findings to the academic health research community.

*Figures were derived with SciVal® bibliometric analysis, which uses Snowball metrics and Scopus data, and was developed by Elsevier Research Intelligence for academic output analysis, from 1996 onwards.

Invited Presentations

Total Number of Invited Presentations: 93

Anis AH. “Prioritizing Treatment Options in Psoriasis: The Pharmacoeconomic Perspective.” 67th Korean Dermatological Association (KDA) Annual Spring Meeting. Seoul, South Korea; April 16, 2015.

Bansback N. “Helping Patients Choose Wisely: Evaluating an Educational Pamphlet Aimed at Reducing Unnecessary Imaging Tests for Low Back Pain.” Centre for Clinical Epidemiology and Evaluation (C2E2) Rounds. Vancouver, BC; March 14, 2016.

Bansback N. “Improving Patient Decision-Making in Health Care.” Canadian Association Population Therapeutics Research Rounds. Vancouver, BC; May 14, 2015.

Barbour SJ. “C3 Glomerulopathy: A Confluence of Hematology, Immunology and Nephrology.” Centre for Blood Research, University of British Columbia. Vancouver, BC; May 6, 2015.

Barbour SJ. “The BC GN Network.” BC Kidney Days. Vancouver, BC; October, 2015.

Barbour SJ. “The MEST Score in IgAN: Implications for Clinical Management.” American Society of Nephrology Renal Week 2015. San Diego, CA; November 5–8, 2015.

Brown C. “Innovation in Surgery.” St. Paul’s Hospital Surgery Grand Rounds. Vancouver, BC; January 2016.

Brown C. “Management of Common Anorectal Problems GI Update.” St. Paul’s Hospital. Vancouver, BC; October 2015.

Brown C. “Management of Patients with Synchronous Colorectal Cancer Surgical Oncology Network Update.” St. Paul’s Hospital. Vancouver, BC; November 2015.

Brown C. “Management of Rectal Bleeding.” St. Paul’s Hospital Continuing Medical Education Conference. Vancouver, BC; November 23–27, 2015.

Brown C. “Transanal Total Mesorectal Excision.” Canadian Surgery Forum, Quebec City, QC; September 2015.

Brown C. “Transanal Total Mesorectal Excision.” BC Provincial Colorectal Surgeon Meeting. Vancouver, BC; October 2015.

Cundiff G. “Sacral Colpopexy: What to do With the Uterus?” CHÉOS Work in Progress Seminar Series. Vancouver, BC; November 18, 2015.

Cundiff G. “Common Questions Regarding Pelvic Floor Disorders in Women.” Mills Memorial Hospital Grand Rounds. Terrace, BC; October 30, 2015.

Cundiff G. “Returning Cystoscopy to Gynaecology.” Seattle Gynecologic Society Fall Assembly 2015. Seattle, WA; September 19, 2015.

Cundiff G. “Sacral Colpopexy: Are Variations Necessary?” Seattle Gynecologic Society Fall Assembly 2015. Seattle, WA; September 18, 2015.

Cundiff G. “Provincial Privileging Standards Project.” UBC Northern Medical Program Department of Obstetrics and Gynaecology. Prince George, BC; October 28, 2015.

Cundiff G. “Defining the Role of Sacral Colpopexy.” University of Perugia. Perugia, Italy; March 21, 2016.

Cundiff G. “The Future of Female Pelvic Medicine and Reconstructive Surgery.” Western Society of Pelvic Medicine Spring Meeting. Calgary, AB; April 24, 2015.

Dodek P. “Moral Distress in ICU Personnel.” BC Kidney Days. Vancouver, BC; October 2, 2015.

Dodek P. “Septic Shock.” UBC Division of Respiratory Medicine Research Seminar. Vancouver, BC; October 15, 2015.

Gadermann AM. “Linking Early Development Instrument Data to Early Monitoring and Assessment Initiatives.” Human Early Learning Partnership Vancouver Island Research Exposition. Comox, BC; November 19, 2015.

Grunau BE. “Do You Like My Cologne? It’s a Wasp-Peanut-IV Contrast Blend: Anaphylaxis Management Update.” St. Paul’s Hospital Emergency Medicine Update 2015. Whistler, BC; September 24, 2015.

Grunau BE. “Do You Like My Cologne? It’s a Wasp-Peanut-IV Contrast Blend: The State of the Evidence for ED Anaphylaxis Treatment.” Mike Hodsmen Memorial Lecture. Calgary, AB; 2016.

Grunau BE. “E-CPR for OHCA at St. Paul’s Hospital: Where Are We Now?” St. Paul’s Hospital Department of Emergency Medicine Grand Rounds. Vancouver, BC; 2015.

Grunau BE. “Safety and Efficiency of CT Coronary Angiography for Evaluation of ED Patients with Potential Ischemic Chest Pain: A Prospective Evaluation and Comparison to Exercise Stress Testing.” St. Paul’s Hospital Department of Emergency Medicine Grand Rounds. Vancouver, BC; 2015.

Grunau BE. “The BC ECPR Study.” UBC Department of Emergency Medicine Research in Progress Rounds. Vancouver, BC; 2015.

Grunau BE. “The Mythical Biphasic Reaction: Do They Exist and Can We Predict or Prevent Them?” 2015 Canadian Association of Emergency Physicians Annual Conference. Edmonton, AB; June 2, 2015.

Grunau BE. “The SPH ECPR Program for OHCA: A Report of Quality Performance Metrics.” The St. Paul’s Hospital Heart Centre Grand Rounds. Vancouver, BC; 2016.

Harris D. “Patterns of Practice, Access to Diagnostic Testing and Opinions on Management of Patients with Transient Ischemic Attack: A Survey of British Columbia Emergency Department Physician Leads.” UBC Department of Emergency Medicine Research Rounds. Vancouver, BC; April 2015.

Harris D. “VTE/Atrial Fibrillation Case Studies.” BMS/Pfizer Advisory Board. Toronto, ON; June 2015.

Harris D. “Dizziness.” St. Paul’s Emergency Medicine Update. Whistler, BC; September 24, 2015.

Humphries KH. “Overview of Sex Differences in Cardiovascular Disease.” Heart and Stroke Foundation – Women’s Heart Health. Richmond, BC; 2015.

Humphries KH. “Sex and Gender: Transforming Cardiovascular Disease Research Over 60 Years.” Cardiometabolic Risk – Heart and Stroke Foundation of Canada (HSFC-ICCR) Symposium. Quebec City, QC; July 9, 2015.

Humphries KH. “An Update on What We’ve Learned About Sex Differences and Heart Disease.” UBC Health Talks at Tapestry. Vancouver, BC; 2016.

Humphries KH. “Crafting a Shared Decision-Making Tool: The Theory vs. the Reality of Engaging Patients in Research.” Evening Rounds. Vancouver, BC; 2016.

Humphries KH. “ICVHealth: Using Data to Improve Care.” UBC Heart Lung Institute Seminar Series. Vancouver, BC; 2016.

Humphries KH. “Treating Diabetics with Multi-Vessel Coronary Disease in BC: Is it Evidence-Based?” CHÉOS Work in Progress Seminar. Vancouver, BC; March 9, 2016.

Koehoorn M. “The Difference Gender and Sex Make to Health Research.” CHÉOS Work in Progress Seminar. Vancouver, BC; December 2, 2015.

Krausz M. “E-Mental Health.” E-Hits Conference. Vancouver, BC; May 9, 2015.

Krausz M. “Youth and Addiction.” German Addiction Conference. Munich, Germany; July 2015.

Krausz M. Berlin Psychiatry Summer School. Berlin, Germany; August 2015.

Krausz M. Canadian Psychiatric Association Annual Conference. Vancouver, BC; October 1–3, 2015.

Krausz M. Canadian Academy of Psychiatric Epidemiology Annual Scientific Symposium. Vancouver, BC; September 30, 2015.

Krausz M. “Addiction, Trauma, Mental Illness – Treatment Options for Complex Concurrent Disorders.” Dual Diagnosis Conference. Barcelona, Spain; April 19, 2015.

Krausz M. “Dual Diagnosis in Vulnerable Urban Populations.” St. Hedwig-Krankenhaus Symposium. Berlin, Germany; April 19, 2015.

Krausz M. “Hallucinations Beyond Psychosis.” First Episode Conference Fraser Health. Vancouver, BC; November 2015.

Krausz M. “HEANTOS Clinical Research Perspectives.” Hanoi, Vietnam; November 2015.

Krausz M. “Innovation in Addiction Care between Hydromorphone and E-Health.” Symposium on Addiction Medicine in Lower Austria. Zürich, Switzerland; 2016.

Krausz M. International Mental Health Leadership Exchange. Vancouver, BC; September 21–25, 2015.

Krausz M. “Marginalization as Coercion.” Conference on the Subjective Side to Schizophrenia with Alternatives to Coercion. Hamburg, Germany; 2016.

Krausz M. “Paradigm Shift in Care.” 24th European Congress of Psychiatry. Madrid, Spain; March 12–15, 2016.

Krausz M. “Treatment of Vulnerable Populations.” 24th European Congress of Psychiatry. Madrid, Spain; March 12–15, 2016.

Krausz M. “Treatment Through Web Based Approaches.” Symposium on Addiction Research. Basel, Switzerland; 2016.

Lea J. “Endoscopic Ear Surgery: Operative Teaching and Training.” First World Congress on Endoscopic Ear Surgery. Dubai, UAE; April 19, 2015.

Li LC. “Moving Research Findings into Practice: Engaging Patients and Consumers in Research.” NEXT Conference & Exposition, American Physical Therapy Association. National Harbor, MD; June 5, 2015.

Li LC. “Theoretical Framework for Knowledge Translation.” American College of Rheumatology/ Association of Rheumatology Health Professionals Annual Scientific Meeting. San Francisco, CA; November 10, 2015.

Li LC. “How Can Quality Indicators be used to Assess or Monitor Quality of Care?” Quality Indicator – A Way to Measure the Quality of Care. Annual European Congress of Rheumatology, European League Against Rheumatism (EULAR). Rome, Italy; June 13, 2015.

Li LC. “Knowledge Translation of Osteoarthritis Research: Advances After 15 Years.” In Plenary Session: New Directions in Osteoarthritis Research.” Arthritis Alliance of Canada Research Symposium. Kananaskis, AB; October 22, 2015.

Lynd L. “Clinical Research in Drug Approval.” 2nd Annual International Summer Program in Medicine, UBC Faculty of Medicine. Vancouver, BC; July 24, 2015.

Lynd L. “Exploring a New Paradigm of Drug Discovery and Development: What are the Implications?” College of Pharmacy, University of Saskatchewan. Saskatoon, SK; September 21, 2015.

Lynd L. “The Cost-Effectiveness of Adherence Interventions to Latent Tuberculosis Drug Therapy in British Columbia.” The Union North America Region and the National TB Controllers Association Conference. Denver, CO; February 24–27, 2016.

McLeod B, **Sawatzky R.** “Enhancing the Voices of Palliative Homecare Clients and the Predicting Outcome in IgAN: Challenges, Solutions and International

Collaborations.” June 17, 2015.

Oviedo-Joekes E. “From Research to Practice: Who Benefits from Injectable Treatment Options for Severe Opiate use Disorder?” British Columbia Centre for Excellence in HIV/AIDS Clinical Rounds. Vancouver, BC; June 18, 2015.

Oviedo-Joekes E. “Is the U.S. Ready for Heroin Assisted Treatment?” International Drug Policy Reform Conference. Washington, DC; November 18–21, 2015.

Oviedo-Joekes E. “Prescription Heroin in Vancouver. The Road from Research to Practice: Why We Took the Fork in the Road.” mCentered. September 30, 2015.

Oviedo-Joekes E. “Response to Injectable Opioid Treatment in Patients with Moderate vs. Low Psychopathology Symptoms.” International Dual Disorder Conference. Barcelona, Spain; April 16–19, 2015.

Oviedo-Joekes E. “The Role of Supervised Treatment with Injectables for Opioid Dependence.” Catholic Health Alliance of Canada Annual Conference 2015. Saskatoon, SK; May 6–8, 2015.

Phang PT. “Canadian Colorectal Clinical Trials Network – a Beginning.” Canadian Society of Colon and Rectal Surgeons. Quebec City, QC; September 17, 2015.

Phang PT. Invited to present at the Canadian Surgery Forum Postgrad Endoscopy Course. Canadian Society of Colon and Rectal Surgeons. Quebec City, QC; September 17, 2015.

Phang PT. “Effect of Colorectal Closure Bundle on Surgical Site Infections.” American Society of Colon and Rectal Surgeons Annual Scientific Meeting. Boston, MA; May 30–June 3, 2015.

Phang PT. “Functional Outcomes of Rectal Cancer Radiation and Surgery: Short vs Long Term Follow-up.” American Society of Colon and Rectal Surgeons Annual Scientific Meeting. Boston, MA; May 30–June 3, 2015.

Phang PT. “Functional Outcomes of Rectal Cancer Treatments.” Montreal Rectal Cancer Conference. Montreal, QC; April 30–May 2, 2015.

Phang PT. “TEM for Early Rectal Cancer.” Montreal Rectal Cancer Conference. Montreal, QC; April 30–May 2, 2015.

Richardson CG. “The Social Network: A Session on the Use of Social Media in Research, Clinical Care, and Building Connections Between Research, Clinical

Practice, Patients, and the Public.” The 22nd Annual Conference of the International Society for Quality of Life Research (ISOQOL). Vancouver, BC; October 21–24, 2015.

Sawatzky R. “The Selection and Utilization of PROMs.” Cardiac Services Seminar. Vancouver, BC; July 13, 2015.

Sawatzky R. “Integrating a Quality-of-Life Assessment and Practice Support System in Palliative Home Care.” Mindmerge conference. Victoria, BC; Nov 10, 2015.

Sawatzky R. “The Validation and Use of Patient-Reported Outcome and Experience Measures in Older Adult Populations.” Colloquium Series – Centre on Aging, University of Victoria. Victoria, BC; November 3, 2015.

Wong H. “Statistics Education for Health Research: A (Personal) Modern View.” SFU Faculty of Health Sciences. Burnaby, BC; April 2015.

Conference Abstracts

Total Number of Conference Abstracts: 140

Aydede SK, Zhang Y, Yiu J, Tai S, Djurdjev O, Komenda P, **Levin A**. Chronic kidney disease and home and community care in British Columbia. Canadian Society of Nephrology (CSN) Annual General Meeting. Montreal, QC; April 23–25, 2015.

Banner D, Lear S, Kandola D, **Singer J**, Horvat D, Bates J, Ignaszewski A. The experiences of patients undertaking a 'virtual' cardiac rehabilitation program. Global Telehealth Conference. Toronto, ON; May 29–30, 2015. Oral presentation.

Bansback N, Lacaille DV, Guh D, **Shojania K**, **Anis AH**. Economic implications for policies regarding triple therapy use in patients with rheumatoid arthritis. *Arthritis & Rheumatology*. 2015; 67(suppl 10). doi: 10.1093/rheumatology/ker385.

Bansback N, Lacaille DV, Guh D, **Shojania K**, **Anis AH**. Estimating cost savings attributable to increased use of triple therapy. *J Rheumatol*. 2015; 42.

Bansback N, **Harrison M**, Dixon W, Han P. Influence on treatment decision-making of providing numerical ranges of side-effect risks. American College of Rheumatology/Association of Rheumatology Health Professionals Annual Scientific Meeting. San Francisco, CA; November 6–11, 2015. Oral presentation.

Bansback N, **Harrison M**, Han P. Aversion to ambiguity about risk of treatment harms influences decision-making and varies by level of risk and ambiguity. The 37th Annual North American Society for Medical Decision Making (SMDM) Meeting. St. Louis, MO; October 18–21, 2015. Poster presentation.

Bansback N, Mulhern B, **Sawatzky R**, Brazier J, Whitehurst DG. Valuing the SF-6D Version 2 in Canada. The 22nd Annual Conference of the International Society for Quality of Life Research (ISOQOL). Vancouver, BC; October 21–24, 2015.

Bitnun A, Lee T, Samson LM, Brophy JC, **Singer J**, et al, for the Canadian Pediatric and Perinatal AIDS Research Group (CPARG). Successes and failures of vertical HIV transmission prevention efforts in Canada: Evidence from the Canadian Perinatal HIV Surveillance Program (CPHSP). The 8th International AIDS Society (IAS) Biennial Conference on Pathogenesis, Treatment, and Prevention (IAS 2015). Vancouver, BC; July 19–22, 2015.

Bitnun A, Lee T, Samson LM, Brophy JC, **Singer J**, et al, The Canadian Pediatric and Perinatal HIV Surveillance Program (CPHSP). Vertical HIV transmission preventive interventions continue to be suboptimal in Canada: Evidence from the Canadian Perinatal HIV Surveillance Program (CPHSP). Canadian Association for HIV Research 2015 Conference. Toronto, ON; April 30–May 3, 2015. Oral presentation O090.

Blair AH, Patel S, Katamba A, Oneka A, Ogwang DM, Tebere L, Odong P, Malamba S, **Schechter MT**, ... **Spittal PM**. "The Congo Lye Project – Healing the Elephant": Experiences of HIV, PTSD, and depression among former abductees in post-conflict Northern Uganda compared to their non-abducted counterparts. American Public Health Association Annual Meeting and Exposition. Chicago, IL; October 31–November 4, 2015.
